PUBLIC MEETING

5:00 p.m.

Monday, March 16, 2026

Council Chambers, Municipal Hall,

355 West Queens Road, North Vancouver

Watch at <https://dnvorg.zoom.us/j/64484156494>

AGENDA

We respectfully acknowledge the original peoples of these lands and waters, specifically the səliłwətał (Tsleil-Waututh), Skwxwú7mesh Úxwumixw (Squamish), and xʷməθkʷəy̓əm (Musqueam), on whose unceded ancestral lands the District of North Vancouver is located. We value the opportunity to learn, share, and serve our community on these unceded lands.

Child Care Business Licence Application

Purpose of meeting:

Council is seeking input from the public with respect to the issuance of a proposed child care facility business licence for Pari Roustaisefat, owner, Blue Sky Daycare, at 431 Vienna Crescent, to amend the current child care licence to increase capacity to 14 children: six spaces for children aged 30 months to school age, and eight spaces for children under 36 months.

The District of North Vancouver REPORT TO COUNCIL

February 23, 2026

AUTHOR: Eirikka Brandson, Community Planner
Caitlin Wong, Community Planning Assistant

SUBJECT: Application to Amend a Child Care Business Licence for Blue Sky Daycare – 431 Vienna Crescent

RECOMMENDATION:

THAT the February 23, 2026, report of the Community Planner entitled "Application to Amend a Child Care Business Licence for Blue Sky Daycare – 431 Vienna Crescent" is received as background information for the public meeting to be held on March 16, 2026.

REASON FOR REPORT:

The purpose of this report is to provide information on the business licence application for Blue Sky Daycare in preparation for the March 16, 2026, public meeting held by Council. The application proposes to increase the facility's capacity from eight to 14 children. This includes six spaces for children aged 30 months to school age and eight spaces for children under 36 months. A public meeting is required for capacity increases from 11 to 20 children as per the [Child Care Facilities Business Regulation Bylaw](#).

SUMMARY:

The applicant has operated a multi-age child care facility for eight children at 431 Vienna Crescent (**Figure 1**) since November 2020. They have applied to Vancouver Coastal Health to amend their licence to increase capacity to 14 children.

An open house was held on January 20, 2026, which 11 individuals attended. A public meeting is being planned, in accordance with the Child Care Facilities Business Regulation Bylaw, to gather additional community input. Council will consider the application at a subsequent regular meeting.

Figure 1 Location Map (431 Vienna Crescent highlighted in Blue)

BACKGROUND:

Blue Sky Daycare operates Monday to Friday from 7:30 am to 5:30 pm and has had no complaints filed with the District. The child care facility currently maintains a waitlist. On July 28, 2025, the operator applied to Vancouver Coastal Health to increase the licenced capacity to 14 children by adding six spaces for children aged 30 months to school age. This proposed expansion requires a public meeting to gather public input as part of Council's consideration of the associated business license amendment.

Should Council approve the business licence amendment, the applicant will be required to obtain building permits and complete renovations to meet BC Building Code assembly occupancy standards. The amended licence will be issued only after the inspections by the Building Department and Vancouver Coastal Health confirm compliance with all provincial codes and child care licensing requirements.

EXISTING POLICY:

[Child Care Action Plan \(2020\)](#)

This plan outlines goals for improving child care services and identifies the number of spaces and programs needed through 2030. District-wide, more than 2,000 new spaces are required to meet demand. Since adoption, 1,320¹ new spaces have been created.

Child care space needs are assessed across the District by age group and area², in which the space targets are as follows:

- Under 36 months: 33 spaces per 100 children
- Ages 30 months to School Age: 50 spaces per 100 children
- Ages 6 to 12: 33 spaces per 100 children

As of January 2026, the North Lonsdale-Delbrook area exceeds District targets for infant/toddlers and preschooler spaces and is approaching the target for school aged children:

- Group Child Care under 36 months: 65 spaces per 100 children (197% of target)
- Group Child Care ages 30 months to School Age: 67 spaces per 100 children (134% of target)
- Group Child Care ages 6 to 12: 30 spaces per 100 children (91% of target)

[Child Care Policy \(2008\)](#)

This policy supports the development of quality child care services that promote children's social, emotional and intellectual growth. It encourages locating child care in high need areas and near community amenities.

¹ Child Care capacity and operator data is updated regularly. The most current information on progress toward child care space targets can be found [here](#).

² The nine areas include: Upper Capilano, Lower Capilano, North Lonsdale/Delbrook, Lynn Valley, Lower Lynn, Lynnmour/Inter-River, Maplewood and Seymour.

[Child Care Facilities Business Regulation Bylaw 6724](#)

The bylaw requires a public meeting for child care business licence applications with 11 to 20 children in residential buildings. Residents within 50 metres will be notified at least 10 days in advance.

ANALYSIS:

In 2014, Council approved updates to the *Planning Guidelines for Group Child Care in Residential Zones* (**Attachment 1**) to strengthen the evaluation of business licence applications within residential areas. These guidelines apply to child care facilities operating from single-family homes, where care is provided for more than eight children. In assessing applications, the guidelines consider the following factors:

- location;
- transportation needs;
- neighbourhood character;
- facility design; and
- neighbourhood consultation.

District staff have reviewed Blue Sky Daycare application against these guidelines. The findings are summarized below.

Location

- The site is located at 431 Vienna Crescent within the Delbrook neighbourhood;
- Vienna Crescent is accessed from Delbrook Avenue;
- Local elementary schools include:
 - Braemar Elementary School (1.3 km)
 - École Andre-Piolat (1.7 km)
 - Canyon Heights Elementary School (2.2 km)
 - Highlands Elementary School (2.5 km);
- As shown in **Attachment 2**, the site is located within a neighbourhood that includes nine child care facilities, providing 120 spaces; and
- Surrounding neighbourhoods, including Upper Delbrook, Highlands, and Canyon Heights, have comparatively fewer child care options, and the site is positioned to help serve these areas.

Transportation Needs

- The Zoning Bylaw requires a minimum of two parking spaces per dwelling unit;
- The Planning Guidelines recommend one additional parking space for every ten children;
- As shown in **Attachment 3**, the site provides two enclosed garage parking spaces and two driveway spaces;
- On-street parking is available on Vienna Crescent and can accommodate staggered drop-off and pick-up activity;
- Staff and families are encouraged to use public transit. Nearby bus stops are located within 100m of the site along Delbrook Avenue; and

- District staff consider the on-site parking adequate, based on Zoning Bylaw compliance, transit access, pedestrian routes, and no expected conflicts with nearby school drop-off or pick-up activities.

Neighbourhood Character

- The Planning Guidelines recommend that child care facilities complement the streetscape, incorporate landscaping for privacy and noise mitigation and provide a fully fenced, secured outdoor play area; and
- The home's design and front yard landscaping (**Figure 2**) are not proposed to change and are consistent with the single-family character of the neighbourhood. Fencing and landscaping are designed to enhance privacy and reduce noise.

Figure 2: Home design and front yard landscaping

Figure 3: Fully enclosed outdoor play area

Facility Design

- The entrance to the child care facility is located at the rear of the building. Families access the centre via the east side of the property, which has an existing pathway that will be upgraded to provide an accessible route;
- The facility is located in a split-level home, with the child care operating in the lower ground level and the residential use above. Proposed site and floor plans are shown in **Attachment 3**;
- Proposed facility improvements include a 22.5 m² (242 ft²) new classroom and an accessible washroom;
- Currently, the child care facility uses the full backyard for outdoor play (**Figure3**). With the addition of a second program, the backyard will be divided into two adjacent play areas:
 - 55.7 m² (600 ft²) play area on the western side for children aged 0-36 months;
 - 41.8 m² (450 ft²) play area on the eastern side for children over 36 months; and
 - The two play areas will be located side by side to support ease of supervision;
- The outdoor space is fully enclosed with fencing and hedging to ensure safety and privacy;
- Outdoor play occurs twice daily, from 10 – 11 am and 3:30 – 4:30 pm; and
- Up to three staff members, including the director, will be on site at any time.

Neighbourhood Consultation

- **Attachment 4** shows the letter mailed by the District on behalf of the applicant to residents within 50 m (164 ft) of the site. The letter explained the proposed child care space expansion and invited neighbours to the open house on January 20, 2026;
- Eleven individuals attended the open house, including families who attend the child care facility, neighbours and prospective families seeking child care. Key comments included:
 - All attendees expressed support for the proposed child care expansion.
 - Inquiries were made about potential renovations or construction, including the scope of any changes; no concerns were raised regarding the proposed plans.
 - Neighbours noted that children and child care centres are an important part of the community and anticipated minimal impacts from the expansion.
 - Questions were raised regarding the District's timeline, next steps, inspection and licensing requirements, and provincial child care fee reduction programs; staff provided responses.
 - Families attending the centre described the operator as "like extended family" and highlighted positive impacts on their children and family life, including support when children are sick. They emphasized the safe and trusted environment, which has enabled them to return to work.
 - Families reported no issues with complying with pick-up or drop-off procedures.
 - Families spoke positively about the centre's support for children with diverse and additional needs.
 - Children particularly enjoy the outdoor play area, which parents noted is frequently mentioned at home.

Since the open house, staff received one written enquiry requesting information on how to attend the public meeting, including the date and time.

Timing/Approval Process:

Prior to the public meeting, the District will mail out notices to residents within 50 m (164 ft) of the child care facility, informing them of the proposal and public meeting.

Following the public meeting, the application will be brought forward for Council consideration at a subsequent regular meeting. If approved by Council, a business licence will be issued upon final completion of inspections by both Building Department staff and Vancouver Coastal Health. These inspections will confirm that the facility meets all provincial building codes and child care licensing requirements.

Social Policy Implications:

The District's Child Care Policy encourages the development of quality child care services near community amenities to support families and enhance community well-being. The Child Care Action Plan (2020) identifies a District-wide need for additional child care spaces, and the approval of this business license amendment supports the District's overall goals.

**SUBJECT: Application to Amend a Child Care Business Licence Blue Sky Daycare –
431 Vienna Crescent**

February 23, 2026

Page 6

Conclusion:

The proposed increase in licensed child care capacity from 8 to 14 children at 431 Vienna Crescent is consistent with the objectives of the District's Child Care Action Plan. Although the immediate neighbourhood is relatively well served with child care facilities, the location is well positioned to support nearby areas. The site offers good accessibility, proximity to transit, and adequate on-site parking. In addition, the home-based design remains compatible with the surrounding residential character, consistent with the District's Child Care Policy. For these reasons, staff support the proposed expansion.

Respectfully submitted,

Eirikka Brandson
Community Planner

PLANNING GUIDELINES FOR GROUP CHILD CARE IN RESIDENTIAL ZONES

Approved January 6, 2014

Application of the Planning Guidelines

Child care in the District of North Vancouver is regulated by the *Child Care Facilities Business Regulation Bylaw*. All child care facilities providing care for more than 2 children are required to obtain a business licence and comply with the provisions of this bylaw; however, these Guidelines will only apply for any application for group child care in residential zones (more than 8 children in care). For child care with a capacity of over 10 children in a residential zone a public meeting or public hearing and Council approval is required, though the licence inspector may refer an application for more than 8 children to Council if the child care may adversely impact the residents of the neighbourhood.

Purpose of the Planning Guidelines

These Planning Guidelines are recommended to:

- assist residents and child care providers to plan for child care services that promote the health and well-being of children in residential zones, and
- assist District staff to evaluate business licence applications for child care in residential areas that promote safe and healthy communities.

Planning for child care in residential areas needs to consider community context, site planning, neighbourhood fit, access and parking, as outlined below.

Planning Guidelines

1. Locate in Under-Served Neighbourhoods

New child care facilities are encouraged to locate in under-served neighbourhoods of families with young children to promote an even distribution of services across the District.

Evaluation: The District social planner can provide numbers of child care spaces in surrounding neighbourhood, number of children in neighbourhood, enrollment in surrounding centres.

2. Locate Close to Community Amenities

Child care facilities are ideally located within a child's walking distance of one or more of the following community amenities:

- schools, playgrounds, open spaces, parks, recreation centres, and libraries.

Evaluation Tools: The District social planner can provide a map of community amenities within the vicinity of the child care program.

3. Locate on Easily Accessible Streets

Child care facilities should:

- be located on residential streets that provide easy vehicle access (entry and exit),
- be located close to arterial roads, and
- provide adequate separation of pedestrian paths from vehicle routes in the parking, drop-off and pick up areas of the site.

A child care facility located along an arterial road should have adequate area within the lot for vehicle drop off, pick up and turning movements to prevent traffic congestion and safety concerns.

Evaluation Tools: The applicant is requested to submit a site plan, context map and transportation plan.

4. Address Arrival/Departure and Parking Needs

Child care facilities should be located on sites that provide adequate space for:

- two stalls for staff/ resident parking,
- one stall for every ten children for parent and pick up and drop off, and
- a safe and non-disruptive vehicle arrival and departure zone for child care users.

Evaluation Tools: Applicants are requested to submit a transportation plan that includes: a site plan with the location of parking, mode share of parents, number of sibling groupings, staggered pick up and drop off times.

5. Maintain Neighbourhood Characteristics

Child care facilities should be located on sites that:

- are compatible with the visual character of the existing streetscape,
- provides landscaping that enhances the privacy, peace and quiet of neighbours, and
- provide the required appropriately located outdoor play space, completely fenced and secured.

Evaluation Tools: Applicants are requested to submit a site plan which includes the location of the outdoor play space and a landscape concept plan.

6. Neighbourhood Support

Any plans for a child care facility should include discussions with neighbours at the early planning stage.

Evaluation Tools: Neighbours will be asked to provide comment on the proposal either at the public meeting/ hearing or via written correspondence. The applicant will be expected to mitigate concerns with reasonable measures.

7. Relationship To Site Grade and Access to Natural Light

Child care applications must demonstrate that emergency evacuation of the children is addressed. Concerns regarding emergency evacuation increase with height above grade. Locations below grade are not preferred due to requirements for natural light. The availability of natural light is important to the creation of a suitable child care space.

Evaluation Tools: Applicants are requested to submit a site plan and an interior layout plan.

8. Strong Indoor/Outdoor Connection

Outdoor space should be at the same level as the indoor space (plus or minus .5 m) and contiguous with it. The proposed site needs adequate outdoor play space (7 square metres per child). The indoor and outdoor areas should be planned together. Indoor and outdoor spaces should allow for inter-related indoor and outdoor activities and free movement by children. The facility should be oriented to allow the surveillance of outdoor play areas from the primary indoor activity area.

Evaluation Tools: Applicants are requested to submit a site plan, showing the indoor/ outdoor relationship, including a landscape concept plan for the outdoor play area.

Letter of Introduction

November 26, 2025

Re: Business License Application – Capacity Increase for Blue Sky Daycare

Dear neighbours,

My name is Pari Roustaisefat, and I live at 431 Vienna Crescent, where I also operate a childcare centre. Over the past few years, we have been grateful to be part of this wonderful neighbourhood and to support families living and working in our community.

We have applied to Vancouver Coastal Health and the District of North Vancouver to increase our childcare license capacity from eight children to 14 children. This would include eight children under 36 months and six children between 36 months to school age. We hope this change will help families access quality childcare close to home.

As part of the review process, District staff encouraged us to connect with our neighbours and share our plans. We truly value your thoughts and would love the opportunity to speak with you. This will be a casual and friendly gathering where you can learn more about our proposal, ask questions, and share any feedback or suggestions. District staff will also be in attendance to explain the business license process and answer any questions.

Later, there will be a public meeting at the District of North Vancouver Municipal Hall regarding our application. After the date is set, the District will notify households located within 50 metres of the centre. The notice will include information about the meeting and instructions for submitting written comments, if desired.

We deeply appreciate your time, support, and consideration. Our goal is to continue providing a caring and safe environment for children while being a respectful and positive part of our neighbourhood.

Sincerely,

Pari Roustaisefat
Owner/Operator of Blue Sky Daycare

Applicant Information:

Contact: Pari Roustaisefat

Address: 431 Vienna Cres, North Vancouver, BC, V7N 3B3

Phone: 778.866.2028

Email: pari.bazogh@gmail.com

Proposal Description

Address: 431 Vienna Crescent, North Vancouver BC V7N 3B3

Context Map:

Lot size: 8,050 sq. ft.

Hours of Operation: Monday to Friday, 7:30 am to 5:30 pm

Time and Duration of Outdoor play: Morning (10 – 11 am) and afternoon (3:30 – 4:30 pm)

Number of employees: 2 (including the director), with a maximum of 3 staff members on site

Parking and Traffic: We have two on-site parking spaces for staff and residents, as well as unrestricted on-street parking available in front of the property. The childcare centre is situated in a residential area close to public transit (100 m from Dellbrook Avenue). The location is well suited for family drop-off and pick-up, with several convenient routes for accessing the property. Staggered schedules will further support a steady, manageable flow of vehicles.

Outdoor Play Space: Our fenced yard (1200 sq ft.) is a nice place for children to play and explore safely. We also encourage children to use their indoor voices and play respectfully outdoors to avoid disturbing our neighbors and to help keep the environment peaceful and quiet during outdoor activities.

Description: We currently provide multi-age care for 8 children, ranging from 6 months to 5 years old. We are proposing to expand to two groups, serving a total of 14 children:

- 8 spaces for Group Infant and Toddler care (under 36 months)
- 6 spaces for Multiage Child Care (36 months to school age)

This structure supports each age group's developmental needs and helps children prepare for a smooth transition to school. Our mission is to provide a warm, nurturing environment where children can grow, learn, and build confidence. We are proud of our team of highly qualified early childhood educators dedicated to delivering exceptional care on the North Shore.

As part of this proposal, we are hosting an open house to give neighbours an opportunity to learn more and ask questions. We are committed to addressing feedback and responding to any concerns that may arise.

For questions or additional information, please contact: Pari Roustaisefat at pari.bazogh@gmail.com or 778.866.2028

Child Care Facility Business Licence Amendment Application

Blue Sky Daycare | 431 Vienna Crescent

Public Meeting

March 16, 2026

Child Care Facilities Business Regulation Bylaw

Public Meeting notice requirements:

- Notify all properties located within 50m (164 ft) of the facility and within the cul-de-sac
- At least 10 days prior to meeting

Blue Sky Daycare

Proposal:

- Increase from 8 to 14 children:
 - 8 spaces (under 36 months)
 - 6 spaces (30 months to School Age)

Planning Guidelines for Group Child Care in Residential Zones

- Evaluation criteria for child care facilities with more than 8 children in a residential building

Criteria:

- Location
- Transportation needs
- Neighbourhood character
- Facility design
- Neighbourhood consultation

Location

- Delbrook Neighbourhood
- Local elementary schools:
 - Braemar (1.3 km)
 - Ecole Andre-Piolat (1.7 km)
 - Canyon Heights (2.2 km)
 - Highlands (2.5 km)
- Nine child care facilities

Transportation Needs

- Four off-street parking spaces
- Parking on Vienna Crescent for drop-off/pick up
- Operating hours 7:30 am to 5:30 pm
 - Staggered pick up and drop off between 7:30 to 9:30 am and 2:30 to 5:30 pm

Neighbourhood Character

- Home and yard align with single-family streetscape
- Enclosed backyard with fence, mature trees and landscaping

Facility Design

- Child care on ground level
- 97.5 m² (1,050 ft²) outdoor play area
- Planned improvements: new classroom, accessible washroom, and nap room

Neighbourhood Consultation

- Open house on January 20, 2026
- 11 attendees
- Support for child care expansion

Child Care Action Plan (2020)

- Child care is a key component of strong, resilient, and livable communities
- An estimated 2,055 additional group child care spaces needed by 2030
- 1,320 new spaces created since 2019

PUBLIC MEETING NOTICE

Child Care Facility Business Licence Application MONDAY, MARCH 16, 2026

A Public Meeting of Council will be held on Monday, March 16, 2026, commencing at 5:00 p.m. in the Council Chambers at the District Hall located at 355 West Queens Road, to consider the following application for a business licence to operate a childcare facility:

Applicant: Blue Sky Daycare
Location: 431 Vienna Crescent
Proposal: To amend the current child care licence to increase capacity to 14 children: six spaces for children aged 30 months to school age, and eight spaces for children under 36 months.

The purpose of the Public Meeting is to enable all interested residents an opportunity to express their views with respect to the issuance of the proposed child care facility business licence.

This meeting will be held in a hybrid format with a combination of in-person and electronic participation by some or all members of council, or by staff and the public. The public are invited to attend at the Council Chambers where they will be able to see and hear the entire proceedings and, at a minimum, the Corporate Officer, or designate, will be in attendance.

Public input on the application will be facilitated by registering in advance with the Corporate Officer at signup@dnv.org prior to 3:00 p.m., March 16, 2026. Public input will be on a first-come, first-served basis. You will then be contacted by the Corporate Officer with instructions on how to participate in the meeting in person or virtually via Zoom.

The public may observe this meeting by viewing online at: <https://dnvorg.zoom.us/j/64484156494> or by phone by dialling 1-778-907-2071 and entering webinar ID 644 8415 6494.

Relevant background material and the agenda for this meeting will be available at dnv.org/agenda on Tuesday, March 10, 2026.

Genevieve Lanz
Corporate Officer
