DISTRICT OF NORTH VANCOUVER

REPORT TO COUNCIL

Dept. Manager	GM/ Director	CAO

Date: October 28, 2026 Meeting Date: November 17, 2026

AUTHOR: Dan Milburn, General Manager of Planning, Properties, and Permits

SUBJECT: Official Community Plan Overview

REASON FOR REPORT:
The purpose of this report and workshop presentation (included as Attachment 1) is to provide an overview of the District's Official Community Plan (OCP) and its supporting plans and strategies**.**

BACKGROUND:
An OCP defines the community's long-term aspirations and desired outcomes. It is a statement of community objectives and goals that guide decisions about planning and land use management to promote human settlement that is socially, economically, and environmentally healthy, and makes efficient use of public infrastructure, facilities, services, land and other resources.

Under the *Local Government Act (LGA)*, all municipalities are required to adopt an OCP. The *LGA* also requires that an OCP include certain land use statements and designations such as where residential, commercial, industrial, institutional and parkland uses are located, as well as policies for the provision of affordable, rental, and special needs housing and the reduction of greenhouse gas emissions. To adopt or amend an OCP, Council must follow the legislative procedures for consultation and hold a Public Hearing.

DISCUSSION:
After extensive community-wide public engagement, the District adopted its current OCP in 2011, establishing a 20-year vision through to the year 2030. With input from residents, businesses, community organizations, and other stakeholders, the OCP establishes a network of connected town and village centres (Figure 1) and includes policies that address a broad range of issues.

These policy categories include:

- Urban form (e.g., land use framework and network of centres);
- Employment lands and economic development;
- Parks and open space;
- Environment and climate action;
- Transportation systems (e.g., road and active transportation network);
- Infrastructure management;

- Social well-being; and
- Housing affordability and diversity.

Figure 1: Network of Centres Map

In 2021, the District completed its OCP Action Plan to help guide the District's initiatives as it continues to implement the OCP through 2030. It includes eight priority actions and 21 supporting actions.

Provincial Housing Legislation:
In 2023, the Province passed legislation (Bill 44) which introduced new requirements that impact long-term planning for municipalities. Among other things, the new rules required the District to:

- Prepare a Housing Needs Report (HNR) - following the provincial government's methodology - to identify the community's 20-year housing needs and update the HNR every five years; and
- Update the OCP to provide for the 20-year housing needs identified in the HNR and update the OCP every five years.

The District completed its current Housing Needs Report in 2024 and undertook the housing-focused OCP Update project in 2025 to meet its legislative requirements. The next HNR and OCP update must be completed by December 2028 and December 2030 respectively.

Supporting Plans & Strategies:
The OCP works together with more detailed strategic actions and plans. This includes District-wide strategies as well as land use implementation plans for each centre that provide more detailed land use policies and design guidelines to shape each centre's distinct character and identity.

Table 1 outlines key strategies and plans that support and work alongside the OCP. A comprehensive list can be found on the District's website:

Timing/Approval Process:
A future comprehensive OCP update is necessary to confirm the vision, objectives, and goals of the community beyond 2030. Key considerations of the next OCP update include:

- The community's 20-year housing needs;
- The community vision to 2050;
- Economic development opportunities;
- Public engagement and consultation approach;
- Housing affordability and diversity;
- Social well-being and safety;
- Transportation and infrastructure investments;
- Climate action and environment; and
- Update or amendment to the town and village centre implementation plans.

CONCLUSION:
The Official Community Plan is the District's primary long-term planning and land use management document, providing the vision, objectives, and framework that guides the community through 2030. Together, with supporting implementation plans and strategies, the OCP informs decisions-making across a broad range of municipal matters. A comprehensive update to the OCP is forthcoming to confirm the vision and goals of the community beyond 2030 and respond to evolving community needs.

Respectfully submitted,

Dan Milburn
General Manager of Planning, Properties, and Permits
